Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 01 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Many areas cloudy with a chance of occasional light rain.

Today:
Many areas cloudy and dry, although with a chance of occasional light rain or drizzle. The best of any brightness is likely to be for the Pennines and Northumberland. Feeling cool near the coast, and rather warm with any brightness. Maximum temperature 16 deg C (61 deg F).

Tonight:
Some clear spells at first, but generally cloudy with outbreaks of rain arriving, especially across eastern areas where some locally heavy rain may develop. Minimum temperature 10 deg C (50 deg F).

Friday:
Cloudy with outbreaks of rain at first, perhaps locally heavy. Becoming drier and brighter through the morning, then sunshine and showers for the afternoon, sometimes heavy and slow moving. Maximum temperature 20 deg C (68 deg F).

Outlook for Saturday to Monday:
Bright or sunny spells and showers throughout, these often heavy, occasionally thundery, and perhaps merging into longer spells of rain at times. Mist and low cloud may affect coasts. Warm.
